

Connie Trip

October 5, 2007

Connie was born in Cambria County Pennsylvania on Christmas Eve of 1926 to Hilda Hesser Teichart and Fred P. Teichart. The family moved to Ohio and Connie was educated in the Hamilton Public School system, graduating in 1944, where she was known as a high spirited, highly intelligent and talented girl who truly had no enemies! She received her B A from Miami University. Connie had the privilege of living with her father, Fred, in both South America and Spain while he was employed in those countries...She happily recalled those times and enjoyed relating incidents during this period. While employed at General Electric in Evendale she was "hand picked" to escort Ronald Regan, actor (later President of the United States) through the plant. A photograph of the two of them was among her cherished possessions. Several years later, while working with the Social Security Administration in Cleveland, Ohio, she was again privileged to "rub elbows" with the famous Dr. Albert B. Sabin when she was sent to the Cleveland Clinic to help him with paper work needed for his File at the clinic. His letter of thanks joined the picture of Pres. Regan in her "great memories".
