“ *Patsy was my mentor teacher when I began teaching at Woodrow Wilson many years ago. She was a dedicated and conscientious teacher who had an impact on many children and adults. My thoughts and prayers are with all of you.*

“ *Dear Randy & Susie...Both Greggie & I are so sorry for your loss. While we did not know your mom personally, we know you. It is through the Grace of God that children are a reflection of their parents, so we know that she was a lovely, grand person based on who you are. Prayers and good wishes to you both. Memories are a wonderful blessing and we know you will cherish each one. Love to you both,
Greggie & kath*

“ *Patsy was one of the most wonderful ladies I've ever known. I too had her as my 4th grade teacher at WW, and years later she remembered I was a music person and recommended me to her church (Lakeshore Presbyterian) as music director. Because of her and what she saw inside, I ended up becoming a fulltime Worship Pastor for 30-some years. Bob did our taxes for years too. The thing I remember most about both of them: they loved God and they adored each other. Thanks you Mrs. Tubbs for being such an impact on my life. God be with you 'til we meet again.*

“ *There is something extra special about a teacher if you remember them so fondly after 43 years. Mrs. Tubbs was my fourth grade teacher at Woodrow Wilson and I loved her dearly. She has been my favorite these years and I have thought of her often. Condolences to all her family. She will be a great teacher in heaven*
