“ My favorite memories are when Dad and I would work on things. Growing up, he would always show me the way to do something rather than do it for me. We built a shed and that old t-bucket when we lived on Wilson. He taught me to really work on cars when I got my first car. There wasn't a component on that thing that we didn't touch. He taught me so many things that I cannot articulate.

I remember that T-Bucket. He brought it to our house and asked if I wanted to drive it. Wow that was fun. I also remember when he let us take his boat to Cumberland for a vacation. He will be missed. Karen and Dave Denzler
